(a)
median $\lambda_{\max}$
control parameter a
Newtonian $p = 3$
$p = 2$
$p = 4$
constant offset
linear ($p = 0$)
no coupling
(b)
chaotic ratio
distance exponent p
equal rms of F
equal median $|F|$
equal median $|D|$
best strength
(c)
positive exponents at $a = 0.97$
distance exponent p
